

SIGN HANGING PROCEDURE/RULES

ONLY TEAM BANNERS MEETING THE BELOW MEASUREMENTS WILL BE ALLOW TO BE HUNG IN THE NATATORIUM:

Banners should be 6 feet wide by 3 feet high so that they can be matched up when they are hung up high. They will need 6 grommets including all four corners and the centers of the top and bottom.

FYI: Short Stop can produce these banners for your team within a few days.

All hand made signs must be hung on the outside of the building, under the tents, and/or along the fence.

PLACEMENT OF TEAM BANNERS

One Swim Team Representative will draw a number at the meeting prior to City Meet. The number your team draws will be the spot your banner will be hung. The center banner will be # 1 and the numbers will go out from there, even and odd on either side. All banners must be received at the Natatorium by the Monday before City Meet weekend. All late banners will not be hung. If your banner does not meet the above measurement standards it will not be hung.
