

Proposal 2015-2

**Proposed by Tommy Kibler, Diving Director
March 15, 2015**

I am proposing the following change to the Diving Competition Regulations and General Information be brought for vote at the April RCSL meeting:

Current Rule: Rule 9 reads:

Nine-and-under boys and girls will dive with no degree of difficulty for their dives. All dives will be assigned a value of 1.0 for the purpose of calculation. The outcome of the contest will depend solely on judges scores (i.e. performance of the dive.

Proposed Change: Rule 9, add second paragraph to read:

Nine-and-under boys and girls will dive with no degree of difficulty for their dives. All dives will be assigned a value of 1.0 for the purpose of calculation. The outcome of the contest will depend solely on judges scores (i.e. performance of the dive.)

Seven-and-under boys and girls may perform a jump in the forward or backward position as the optional dive. A maximum award of 1 point per judge may be awarded. The dive numbers and descriptions are 100 forward jump and 200 backward jump. This option is valid for dual and city meet competition.
